*Chocolate decorations
tailored to your needs*

Dear Confectionery Enthusiasts.

The year 2021 is exceptional for us. Together with you, we are celebrating the 30th anniversary of our family business – Barbara Luijckx. The jubilee has inspired us to create 16 new designs of decorations to express our inexhaustible passion for chocolate.

Over the past 30 years we have met many wonderful people who share our love for confectionery trade. As a thank you for longstanding relations and exchange of valuable experiences, we designed for you a Heart and Kiss. They express feelings and emotions associated with the creation of the finest confectionery pieces.

The collection of our new designs would be incomplete without the Circle and the Square – two timeless shapes used by the Roman architect Vitruvius and Leonardo da Vinci to define the perfection of Man. We hope that both figures will be an unfailing inspiration for you to create perfect and modern sweet arrangements.

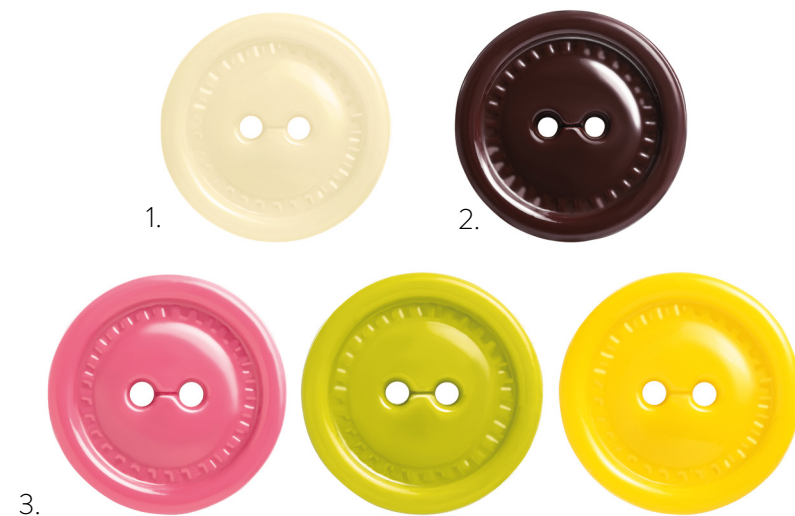

Just like you, we want every special occasion you celebrate to be unique. There are endless possibilities of confectionery creation and human imagination is as infinite as the universe. The Cosmos – abundant with shining stars and colourful planets – has inspired us to design the Stars and four precious Black Pearls.

Heart and Mouth, Circles and Squares, Stars and Black Pearls... - this diverse range of new chocolate designs is supplemented by indispensable Buttons to tailor confectionery arrangements to your needs. In appreciation of the wonderful 30 years, we give you this new palette of shapes, colours and applications and with great satisfaction invite you to continue our common journey, full of beautiful chocolate designs.
