“ POSSIAMO CHIUDERE IL CERCHIO, INSIEME

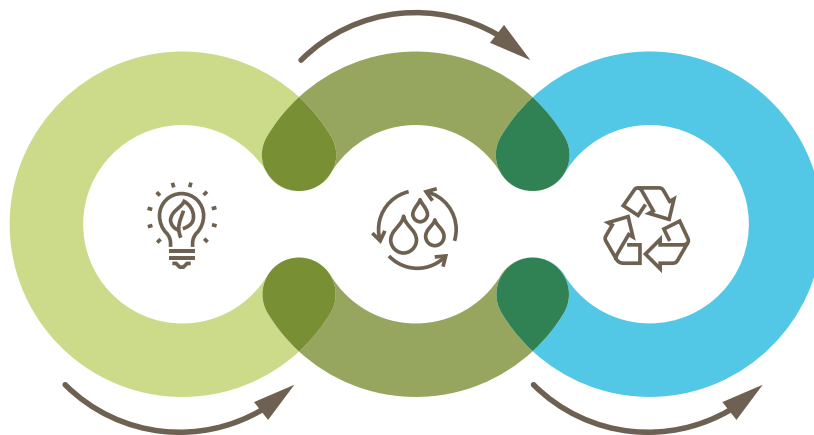

We can close
the loop,
together”

La plastica ha un ruolo importante da svolgere, sia oggi che domani. In Poloplast vediamo un futuro nel quale le risorse che utilizziamo sono ottimizzate al massimo. Dove il packaging è completamente riciclabile attraverso l'utilizzo di materiali riciclati e risorse rinnovabili. Dove la cultura del riciclo è ampiamente compresa e supportata, dove la plastica utilizzata è vista come una risorsa, non come un rifiuto.

Unisciti a noi nel nostro viaggio verso il futuro della plastica sostenibile: un futuro con meno rifiuti.

Plastic has an important role to play, today and in the future. In Poloplast we see a future where the resources we use are highly optimized. Where packaging is completely recyclable and there is a greater use of recycled materials and sustainable sources. Where recycling is widely understood and supported, and where plastic is valued as a resource, not as waste.

Join us on our journey towards the future of sustainable plastic: a future with less waste.

INNOVARE // INNOVATE

Fare di più sprecando meno.
Do more by wasting less.

RIUTILIZZARE // REUSE

Massimizzare l'utilizzo di materie da fonti sostenibili.
Maximize the use of materials from sustainable sources.

EDUCARE // EDUCATE

Promozione continua sull'importanza del riciclo.
Promote the importance of recycling.

“ LA QUALITÀ È DI FAMIGLIA ”

Quality is a family affair

Poloplast è oggi una solida realtà nella produzione di packaging per alimenti, con una gamma che conta oltre 230 linee di articoli, specializzata nel settore della gelateria, della pasticceria e del catering. Nata nel 1994 in provincia di Treviso ed ampliata nel 2015 in provincia di Venezia, l'azienda è oggi presente nei cinque continenti senza limiti geografici.

Poloplast is a strong reality in the packaging industry, unique producer of a range counting 230 product lines, specialized in the ice cream, pastry and catering sectors. Founded in Treviso province, expanded in 2015 in the Venice province, the company is present nowadays all over the world.

Grazie all'impegno, all'entusiasmo, alla costante collaborazione con i clienti ed ai numerosi investimenti tecnologici, Poloplast offre al mercato una gamma completa di contenitori per alimenti, prodotti negli stabilimenti di Motta di Livenza e San Stino di Livenza: articoli sicuri e funzionali, ricercati nei materiali e nelle forme.

Thanks to the commitment and enthusiasm, the constant collaboration with the customers and the several investments, Poloplast is able to offer to the market a complete range of plastic food containers, produced in Motta di Livenza and San Stino di Livenza plants: safe and functional items, extremely valuable in materials and shape.

“ CON NOI SEI SEMPRE AL SICURO ”

Trust us! We are Brc Packaging certified

Poloplast è la prima azienda produttrice di packaging Made in Italy per alimenti in plastica ad aver conseguito entrambe le certificazioni BRC PACKAGING - GRADE AA e ISO9001:2015.

Poloplast is the first producer of packaging for food contact made in Italy, who obtained BRC and ISO9001:2015 certifications.

Lo standard BRC PACKAGING nasce con l'intento di dare garanzie in materia di sicurezza igienico/sanitaria dei materiali che entrano a contatto con gli alimenti. Tale standard è privato e sviluppato da BRC -British Retail Consortium- con la collaborazione dell'IOP -Institute Of Packaging- ed è rivolto a: produttori di materiali a contatto con l'alimento MCA, utilizzatori di packaging destinato al contatto alimentare.

BRC/IOP standards aims at ensuring hygienic and sanitary safeness for food grade materials. This standard is private and developed by BRC- British Retail Consortium - and is addressed to: producer of MCA food grade materials, users of packaging intended to come in contact with food.

LE ECO

La linea Eco si presenta con stile e soddisfa le esigenze espositive e funzionali per il tuo gelato. L'ampia gamma include contenitori termici per il gelato sfuso, a peso o volume. Le vaschette sono idonee al contatto con diversi tipi di alimenti: prodotti secchi, freschi, formaggi e gelati mantenendo inalterate le loro capacità termiche.

The Eco line, with its own style, meets the functional and displaying requirements for your ice cream. The wide range includes thermic containers for loose ice cream, by weight or volume. These containers are suitable for contact with different types of food: dry, fresh products, cheeses and ice creams while maintaining their thermic resistance.

METTI IN MOTO LA FANTASIA

Utilizza Cassata in modo creativo oppure segui la tradizione, creando la tipica cassata siciliana. Bastano pochi ingredienti: ricotta zuccherata (di pecora seguendo la ricetta tradizionale), pan di spagna, pasta reale e frutta candita.

SWITCH ON YOUR FANTASY

Use Cassata in a creative way or follow the traditional recipe. You only need few ingredients: ricotta cheese (traditionally sheep's milk ricotta), sponge-cake, almond paste and candied fruits.

TORTE GELATO

LE CLASSICHE

1

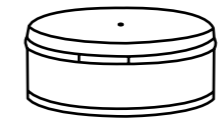

FONDO MOBILE: con fondo mobile potrai estrarre la tua torta una volta finita e servirla su un piatto con solo il fondo, senza la fascia.

REMOVABLE BOTTOM: with this one you can pull out the cake once ready and serve it only with the bottom tray, without the band

2

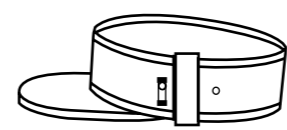

FONDO FISSO: con fondo fisso potrai servire la tua torta direttamente dal nostro contenitore, senza estrarre la torta.

FIXED BOTTOM: with this one you can serve your cake directly in the container, without pulling it out

3

FASCIA APERTA: con fascia aperta, potrai servire la tua torta munita solo di vassoietto, grazie alla fascia che puoi aprire togliendo i gancetti laterali che la tengono chiusa.

OPEN BAND: with this one, you can remove the band thanks to its hooks and then serve the cake directly on the tray
